OP1	Operator of wharf
OWNER	Owner of wharf
PURPOSE	Purpose for which wharf is used, including commodities handled and/or services performed
RWYCONN	Railway connections servicing wharf
PORTSER	Port Series Report Number
SEQ_NO	Unique number that is generated within each port series number
LOC_CD	Location code generated by waterborne commerce statistics center
PWDNO	Pier, wharf or dock record sequence number from current edition of port series report
OLDPWD	Pier, wharf or dock record sequence number from previous edition of Port Series Report
DOCKCD	Location code designating where a dock is located generated by WCSC
NDCCODE	Internal code generated by the navigation data center for data integration and system interoperability
COMMCD1	Commodity code for first commodity handled at wharf
COMMCD2	Commodity code for second commodity handled at wharf
COMMCD3	Commodity code for third commodity handled at wharf
COMMCD4	Commodity code for fourth commodity handled at wharf

REMARK1	Remarks, including description of wharf - related storage facilities and their operators
REMARK2	Remarks, including description of wharf - related storage facilities and their operators
REMARK3	Remarks, including description of wharf - related storage facilities and their operators
REMARK4	Remarks, including description of wharf - related storage facilities and their operators
REMARK5	Remarks, including description of wharf - related storage facilities and their operators
DATUM	Depth/Height Datum Used
DEPTH1	Depth alongside wharf's first operational element being described
DEPTH1A	Second depth alongside wharf's first operational element being described
DEPTH2	Depth alongside wharf's second operational element being described
DEPTH2A	Second depth alongside wharf's second operational element being described
DEPTH3	Depth alongside wharf's third operational element being described
DEPTH3A	Second depth alongside wharf's third operational element being described
TBIRTH1	Berthing distance of wharf's first operational element being described
TBIRTH2	Berthing distance of wharf's second operational element being described
TBIRTH3	Berthing distance of wharf's third operational element being described
YEAR	Year of last survey
MAPNO	Port series report map no.
FNAME	First name of contact person
LNAME	Last name of contact person
PHONE	Telephone number of facility operator or contact person
FAX	Fax telephone number of facility operator or contact person
VERSION	The VERSION is a 2-digit number that will be incremented for all records in the database whenever a new release is distributed.
REVISION	Revision to the database
